Press Release

2018

Co-operation agreement signed between
Zinnovate International AB and Enigio Time AB

Zinnovate International and Enigio Time have jointly agreed to co-operate in finding business opportunities for Enigio' blockchain based solutions within the shipping industry.

Håkan Nilsson founder and CEO of Zinnovate states that the solutions provided by Enigio provide immense possibilities to streamline and digitalize the document flows within the shipping industry. Blockchain technology will transform the shipping industry as we know it today.

Göran Almgren co-founder and CEO of Enigio Time states that the combined competence between Zinnovate and Enigio provide unique possibilities to provide offerings towards the shipping industry.

Zinnovate International www.zinnovate.se is a fast-growing IT and management consultancy company with its roots in empowering global logistics companies to realize the full potential of their IT portfolios.

Zinnovate has recently broadened its geographic footprint to cover all continents and offers a unique network of IT- and management consultants deeply rooted in the global freight forwarding industry.

Zinnovate is acknowledged as the Best Management Consultancy in Global Logistics Industry at the Business Worldwide Global Corporate Excellence awards 2017.
